User Guide on IOS Application

The iOS Moodle application is developed in iOS 8.1, XCode 6.3 and Swift 1.2. The application would work well in this version. Cause it is not tested in iOS7 or other version devices, so there may not run successfully in those device.

App Icon

This app uses an orange color as the main theme of Moodle platform. To make the application more interactive and fun, we custom designed some image, icon and animation. That will let user be more tend to use our app instead of the Moodle website because we built a better user interface and more convenience to them. So that, user would not think bored or unlike to use our app. Even this is an e-learning purpose app.

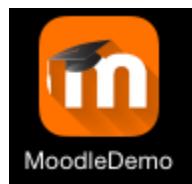

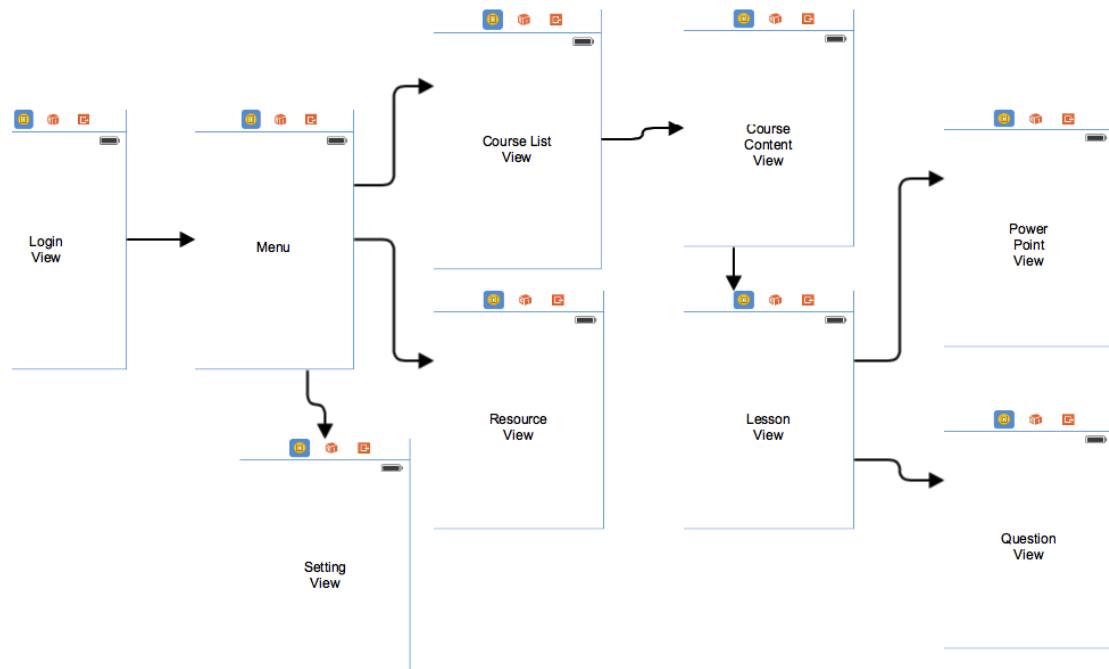

Figure 1 App Icon

This is our self-designed application icon. It uses the main theme of orange color and long shadow design style. The application name “MoodleDemo”.

Application Structure

Here is the structure and navigation of the iOS application. The first screen is a login screen, user are required to login in order to use our app. The navigation system of main screen is controlled by the side menu. That will direct user for different function pages like the course menu, file menu and setting menu. So far, the application is just on the progress of implementing functions of course menu. When we tap the course list menu, the application will direct us to the course screen. Finally, when we tap once of the course, we can see all contents of the application. Lesson screen shows the Elesson details. PowerPoint screen shows a full screen PowerPoint in landscape mode.

Universal App Technique

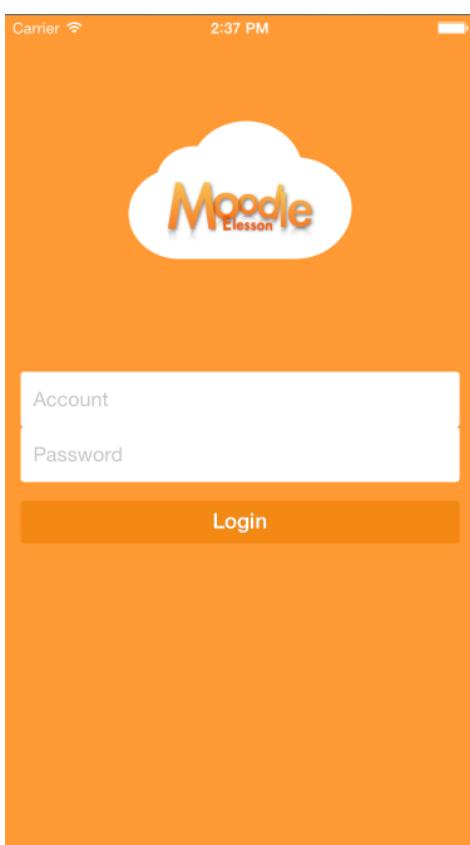

Figure 2 iPhone6 login screen

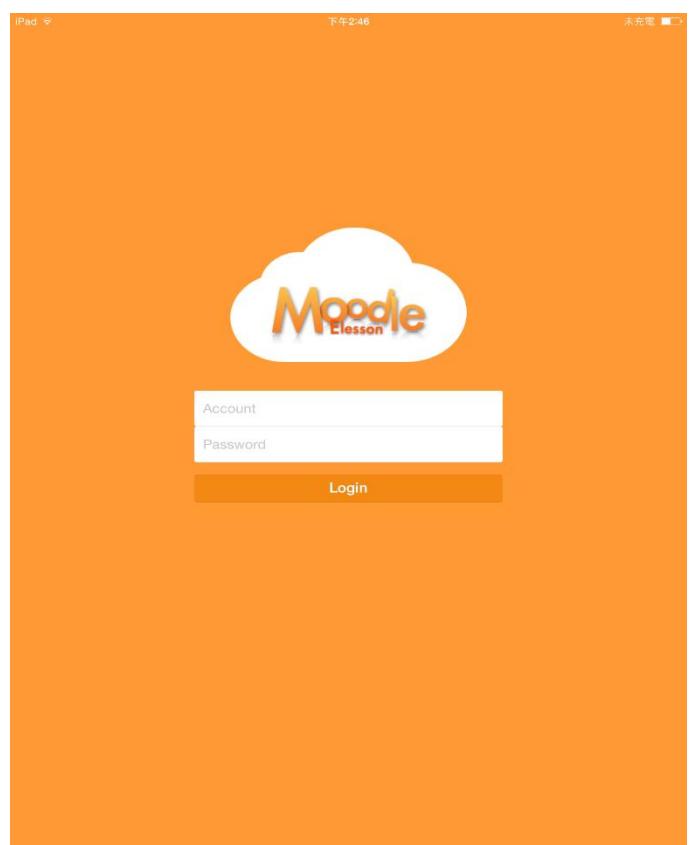

Figure 3 iPad login screen portrait

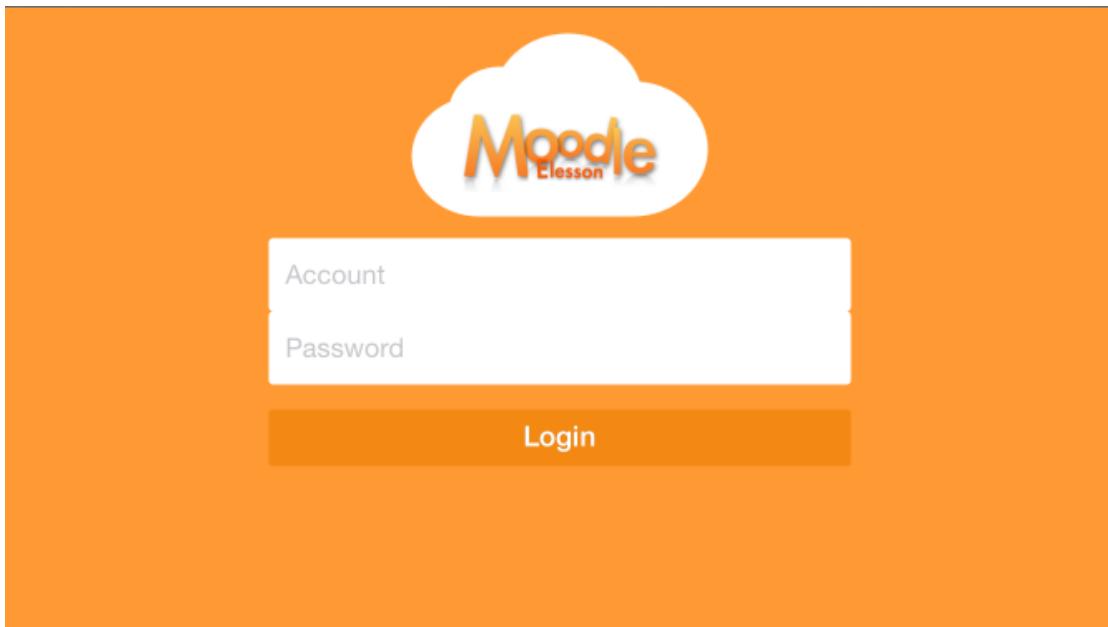

Figure 4 iPhone6 login screen landscape

As you can see above, it is the login screen of our application. There include a self-designed logo, a cloud with the text “Moodle lesson” and a login form. It is a clear and simple design.

The application is also support for both iPhone and iPad. Components would be auto layout themselves in different size of screen. It uses the layout technologies from Apple, which called Auto Layout and Size Classes. So that, one source can develop for both iPhone and iPad, there is no need to re-write codes for different device.

Auto Layout

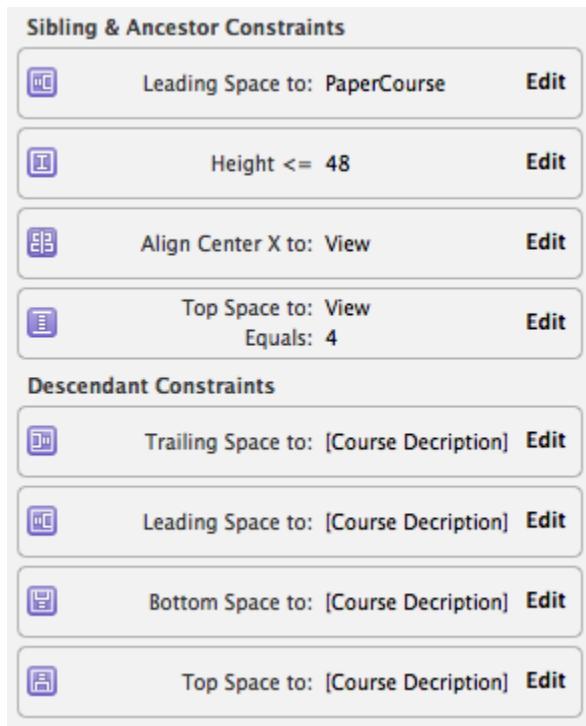

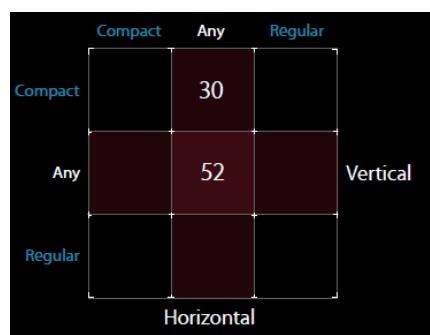

Figure 5 auto layout

Auto Layout is a layout technology developed by Apple. It layout things based on setting constraints. For example, setting the maximum width and height, the property that the constraint will going to conformed, the spacing of two component, the scale and alignment. The application can be automatically calculate the best layout for different screen. The Figure above is the example of constraint set in the course label.

Size Classes

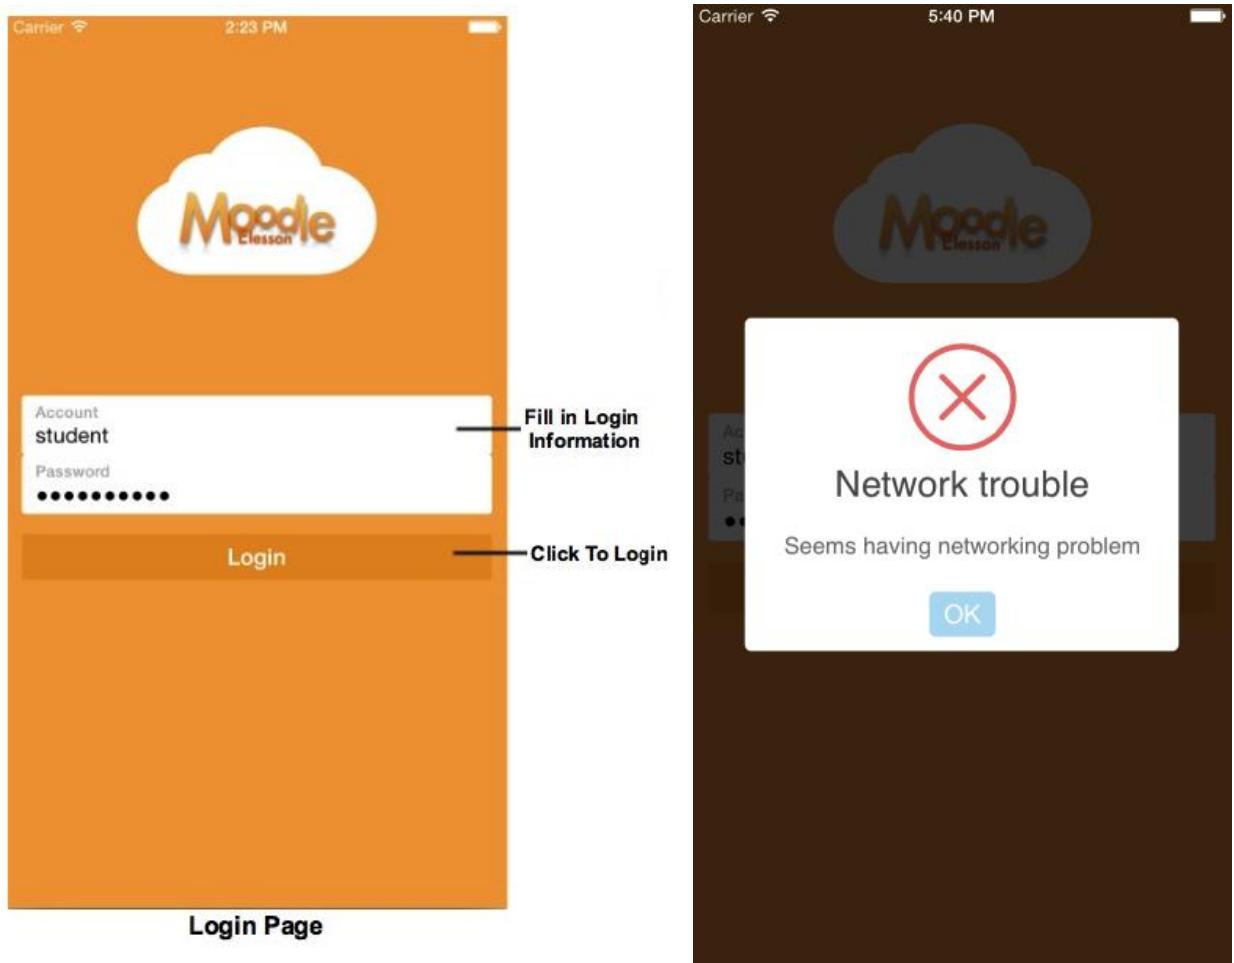

This app also use the concept of Size Classes. Size Classes allow developers to set up different constraint on different Size Classes. There's three size classes, they are Compact, Any and Regular. They are representing different device. A constraint that set in Any, Any that represents the width and height of the Size Classes would be considered by the application in any devices.

Figure 6 Size Class reference from apple WWDC 2014

With auto layout and size class the application can be fitting into different devices in dimensions. That is convenient for the development and testing. Therefore, our app applies this layout technology.

Login Screen

The Login page is pretty straightforward, user fill in the Moodle account login information and click on the login button to login. An alert view will pop up when login process unsuccessfully.

When user entered required details and hit login button, the application would show an activity indicator replacing the origin login text to inform user the login process is now in progress.

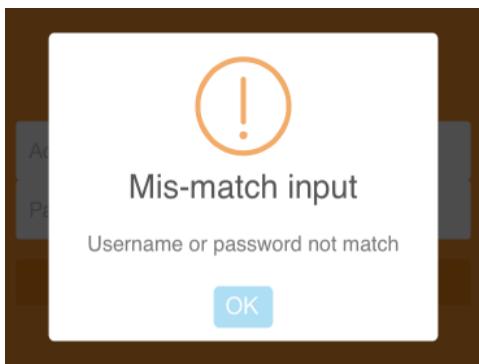

Figure 7 Alert box - warning

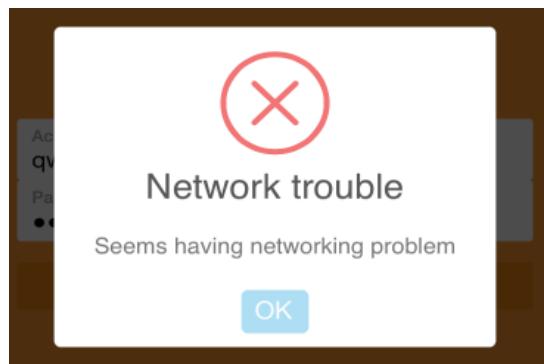

Figure 8 Alert box - error

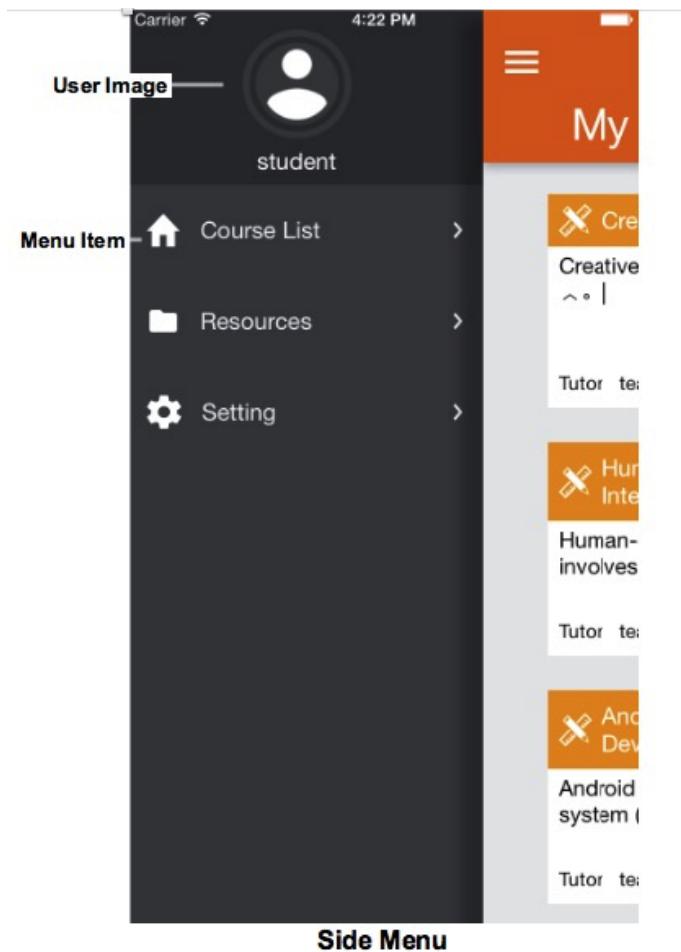

When user entering wrong password, the networking status is not available or any other possible failure in server, there will be an alert box showing the error.

A screenshot of a login form. The "Account" field has the placeholder "student" and the "Password" field has a series of black dots representing the password. Both fields have orange floating labels above them.

Figure 9 Login form

The text field has a floating label effect. The placeholder will be float upward when user is editing.

Side Menu Bar

Side Menu

The side bar will be the main navigation of the whole application, on top of the side bar, there is a user icon and user name showing the details of current user.

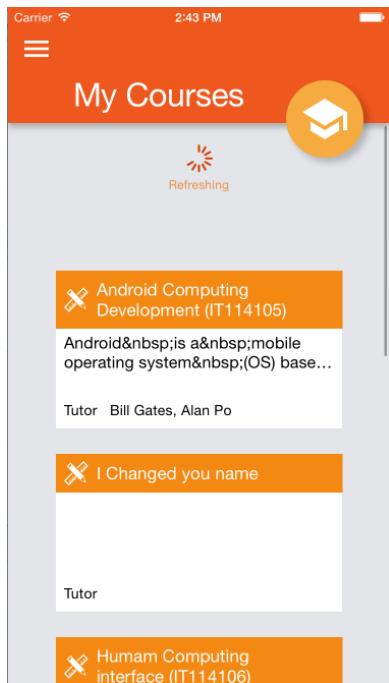

Under the user information area is a table view showing a menu. If user taps the menu button, the right view will be change to corresponding detail page.

Course Table View

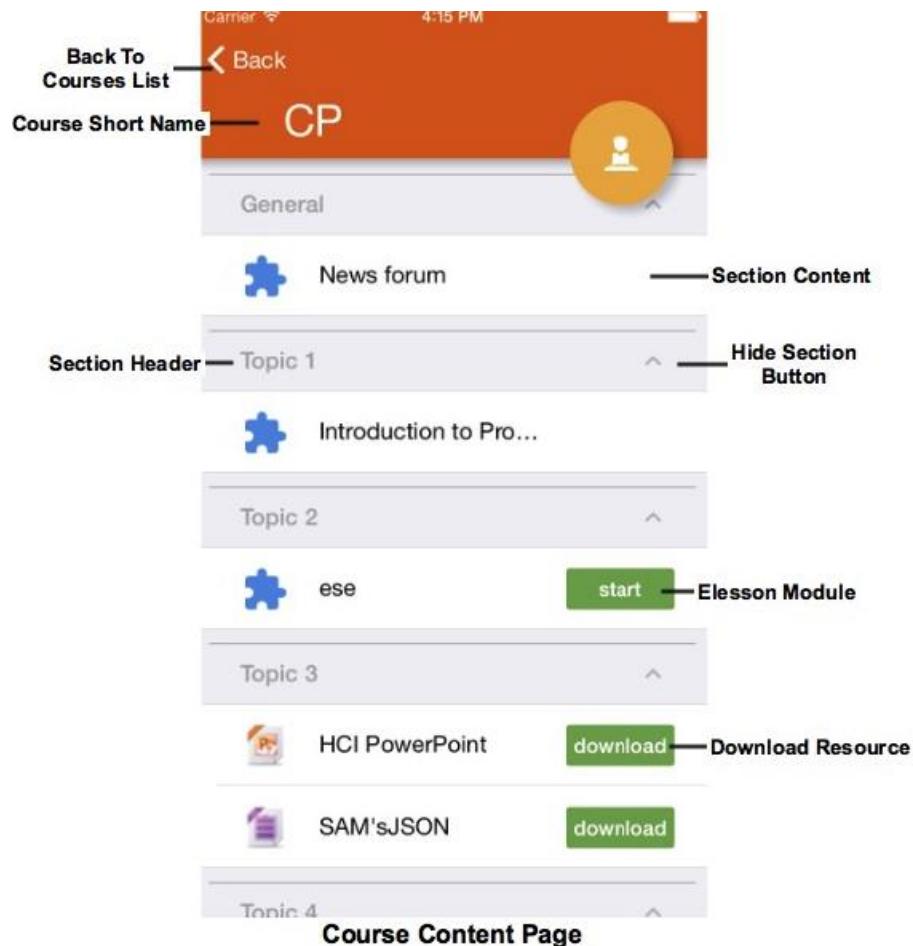

Figure above is the course view showing available courses that user enrolled in to the user. User can get into the course by click on the course view. Each course is displayed in a paper material style. There is the course description and the tutors of that course.

On the upper left corner, there is a menu button. When user clicks on that, it will shows a side menu bar.

The Course table also implement with a pull to refresh function, if there is something change in server side, pulling the course list would be re-fetching the data from server and update to the view.

Course Content

The figure above will appear when user tap one of a user course. The title CP is a short name of human computer interaction. There is also a table showing the all course details as the website shown. User can download Resources by tapping on download button. The resource will be stored in /user/Document directory. User can also join into the e-lesson by tapping the start button. Other modules shown as normal, but we are not focusing to interact with them in this moment.

The table header can be expand or collapse the all modules which is the contents of that section header by tapping the arrow at the right side. At the moment, the arrow will be rotated 180 degrees indicating the user whether it is expanding state or collapsing state.

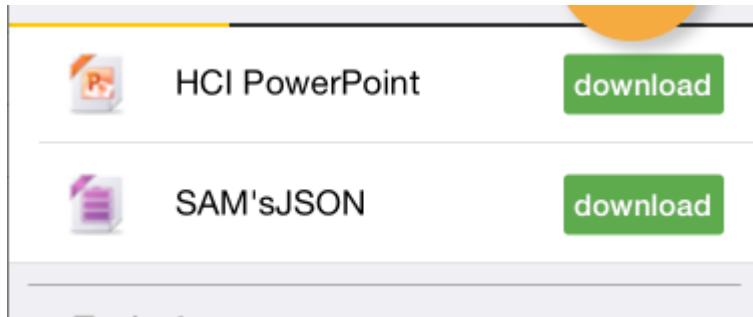

Figure 10 download resource

The figure above shows that user can download the resource and the download process in shown upward the table view cell.

Resources Page

A screenshot of a mobile application's 'Resources Page'. The top navigation bar shows 'Carrier', signal strength, '4:34 PM', and battery level. Below the header, there is a toolbar with icons for 'Document/PowerPoint', 'File Path', 'Arrange Format', 'Type', 'Name', 'Date', 'Size', 'Header', and 'File List'. The main content area displays a table of downloaded files. The columns are labeled 'Type', 'Name', 'Date', and 'Size'. The first row contains a file named 'iOS Programming Fu...', created on '3 Mar, 2015', and sized at '125 KB'. The second row contains a file named 'Lesson 04(Windows...)', created on '13 Feb, 2015', and sized at '4.3 MB'. The third row contains a file named 'Lecture 2', created on '2 Mar, 2015', and sized at '386 KB'. Below the table, there are three large, semi-transparent gray rectangular boxes, each with a thin white border. The bottom-most box is labeled 'Resource Page'.

The Resources Page shows all resources downloaded in course content page. User can arrange the format to list view or block view. User can also viewing each files information like created date and size. User can also open each resource in other apps that support specific format by long pressing the resource item.

Lesson Page

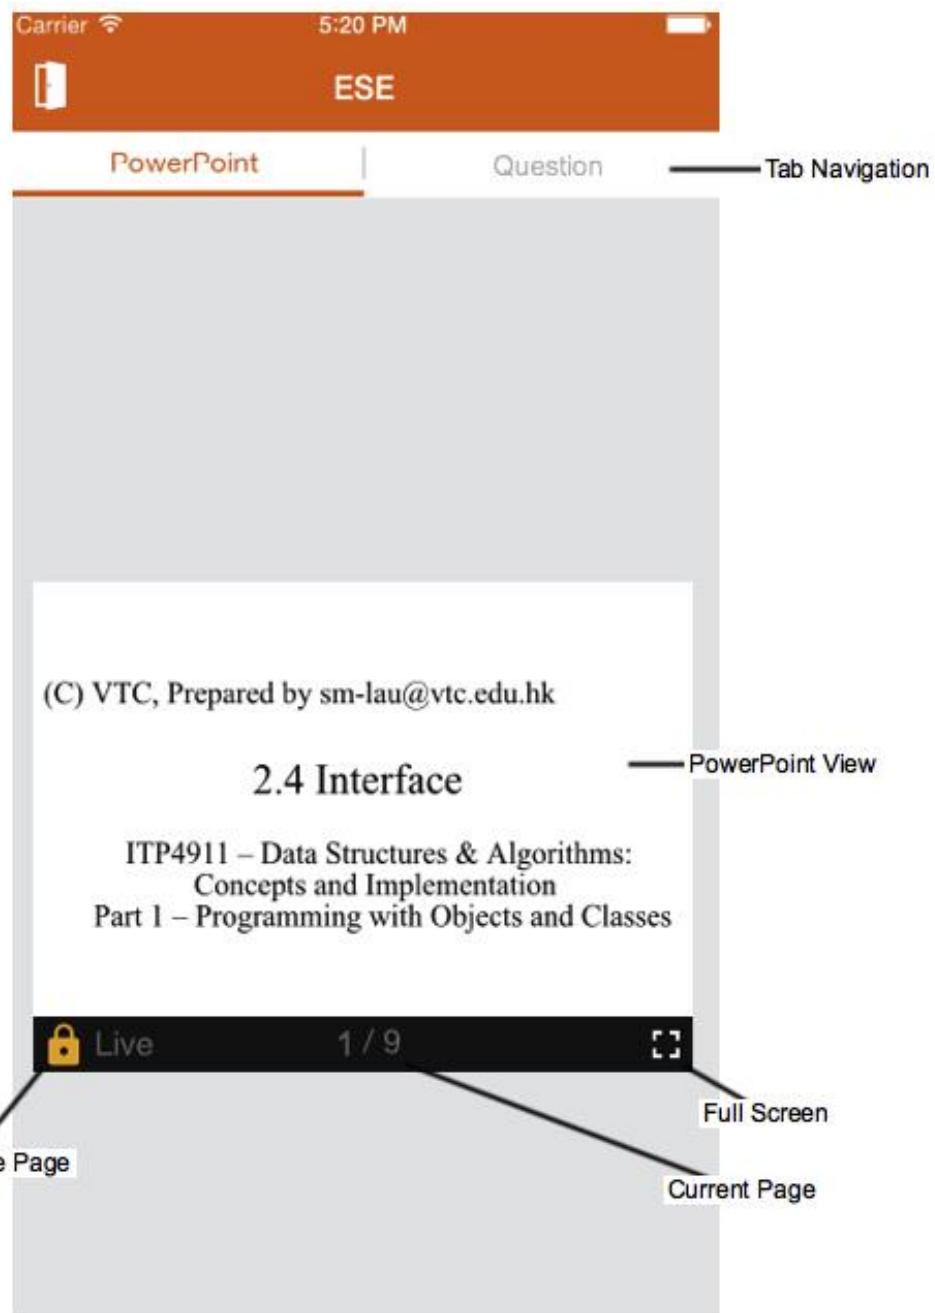

Figure above shows a Lesson Screen, the lesson have a PowerPoint on the middle. User cannot change the PowerPoint page by default. When teacher change PowerPoint page, device will change the page at the same time. The lock Button indicate user that they cannot change the page. User can make PowerPoint full screen by pressing the right-bottom corner button.

There is also a tab navigation on the top, user can change to question page to finish questions on specify lesson page.

Full Screen PowerPoint Page

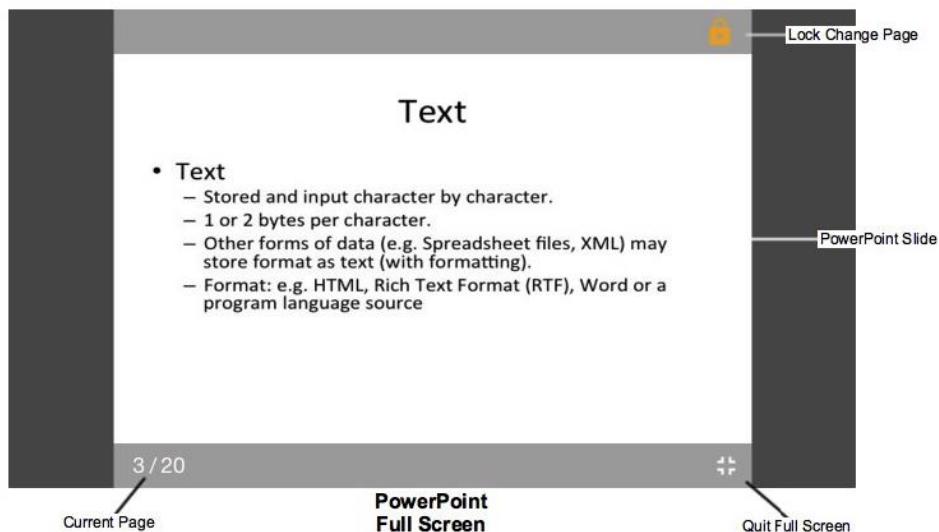

Figure 11 Full Screen PowerPoint

Figure above shows the PowerPoint in full screen mode. The functionality is same as Lesson Page, except zooming to full screen. The button on the right-bottom corner can quit the full screen.

Questions Page

The Questions Page shows multiple questions that contains in specific lesson page.

The screenshot shows a "QUESTIONS" section with three questions listed:

- Question Header:** tf content
- Description:** mc single
- A:** mc single2
- Answer:** mc multi2, mc multi3
- Submit:** Submit

The table header shows the questions and description about the question. User can answer questions after the header. It supports multi-type question like plain text, true or false and multiple choices. In the bottom, user can submit the answers to the server.

User Guide on Web Moodle

Login to Moodle:

1. After successfully installed the Moodle package, go to the Moodle website.
2. Click 'Login' at the top right corner.
3. Type the username and password, the click 'Log in'.

The screenshot shows the FYP Moodle homepage in a Windows Internet Explorer browser window. The URL in the address bar is <http://localhost/>. The title bar says "FYP Moodle - Windows Internet Explorer". The page header includes the Moodle logo and the text "Moodle". A red box highlights the "(Log in)" link in the top right corner. The main content area is titled "Available courses" and lists a single course: "Introduction to Java" with a brief description: "Introduction to Java for Java beginner". On the left, a navigation sidebar shows "Home" and "Courses". On the right, a calendar for April 2015 is displayed, showing days from 1 to 30. At the bottom, there is a message "You are not logged in. (Log in)" and the Moodle logo. The status bar at the bottom of the browser window shows "Internet | Protected Mode: On" and "100%".

Create eLesson module:

1. (If you haven't created a course, go to **Create Course**.)
Expand 'Current course' and click the course you have created.
2. Click 'Turning editing on'.
3. Click 'Add an activity or resource' at the place where you want to put the eLesson in.
4. Choose 'eLesson' and click 'Add'.
5. Fill the data (* is mandatory) and click 'Save and return to course'.
6. If the eLesson is successfully installed, you should be able to see the eLesson you have created before in the course.

The screenshot shows a Moodle course page titled "Introduction to Java: 0 enrolled users". The URL in the browser is <http://localhost/enrol/users.php?id=2>. The page includes a navigation bar with links like "Home", "Courses", "Miscellaneous", "Users", and "Enrolled users". On the left, there's a "NAVIGATION" sidebar with "My home", "Site pages", "My profile", "Current course" (which is expanded to show "Participants", "Badges", "General", and "Courses"), and an "ADMINISTRATION" sidebar with "Course administration" (including "Turn editing on", "Edit settings", "Users" - which is expanded to show "Enrolled users" (selected), "Enrolment methods", "Groups", "Permissions", and "Other users"), "Filters", "Reports", and "Grades". The main content area displays the "Enrolled users" list with columns for "First name / Surname", "Last name", "Roles", "Groups", and "Enrolment methods". There are search and filter options at the top of this list. A red arrow points to the "Participants" link in the "Current course" navigation menu, and another red arrow points to the "Enrolled users" link in the "Users" section of the "Administration" sidebar.

The Custom Lesson activity module is a variant of the traditional Lesson, allowing to customize lessons, questions and answers on a student basis. The (traditional) lesson activity module enables a teacher to deliver content and/or practice activities in interesting and flexible ways. A teacher can use the lesson to create a linear set of content pages or instructional activities that offer a variety of paths or options for the learner. In either case, teachers can choose to increase engagement and ensure understanding by including a variety of questions, such as multiple choice, matching and short answer. Depending on the student's choice of answer and how the teacher develops the lesson, students may progress to the next page, be taken back to a previous page or redirected down a different path entirely.

A lesson may be graded, with the grade recorded in the gradebook.

Lessons may be used

- For self-directed learning of a new topic
- For scenarios or simulations/decision-making exercises
- For differentiated revision, with different

This screenshot shows the Moodle course creation interface. In the center, a form is being filled out for a new eLesson. The 'Name*' field contains 'New eLesson'. Under 'Time limit (minutes)', the value '20' is entered, with the 'Enable' checkbox checked. The 'Available from' section shows a date range from April 26, 2015, at 12:30. The 'Deadline' section also shows the same date and time. A dropdown for 'Maximum number of answers' is set to 4. Below the form, there are several expandable sections: 'Grade', 'Grade options', 'Flow control', 'Pop-up to file or web page', 'Dependent on', and 'Common module settings'. At the bottom right of the form is a button group with 'Save and return to course' (highlighted with a red box), 'Save and display', and 'Cancel'. To the left of the main form is a sidebar titled 'ADMINISTRATION' containing a 'Course administration' section with links for Turn editing off, Edit settings, Users, Filters, Reports, Grades, Badges, Backup, Restore, and Import. The status bar at the bottom indicates 'Internet | Protected Mode: On' and '100%'. The top right corner shows the user 'Admin Hui'.

Delete eLesson:

1. Click 'Turn editing on' at top right corner of the web page.
2. Click 'Edit' and choose 'Edit settings'.
3. Click 'Delete' and confirm.

The screenshot shows a Moodle course page titled "Introduction to Java". The URL in the browser is <http://localhost/course/view.php?id=2>. In the top right corner, there is a red box highlighting the "Turn editing on" button. The page contains several sections: "NAVIGATION" with links like "Home", "My home", "Site pages", "My profile", "Current course" (expanded to show "itj", "Participants", "Badges", "General", and dates from "27 April - 3 May" to "29 June - 5 July"), and "Courses". "ADMINISTRATION" includes "Course administration" with "Turn editing on" and "Edit settings" options. Other sections include "SEARCH FORUMS", "LATEST NEWS" (with a note about no news posted), "UPCOMING EVENTS" (noting no events), and "RECENT ACTIVITY" (showing activity since April 26, 2015). A "News forum" link is also present.

The screenshot shows the Moodle course administration interface for the 'Introduction to Java' course. The left sidebar includes links for Home, Site pages, My profile, Current course (with sub-links for itj, Participants, Badges, General, and various dates), Courses, Administration, and Course administration. The main content area displays a timeline from April to June. Under the '27 April - 3 May' block, there is a 'News forum' and a 'New eLesson' item. The 'New eLesson' item has an 'Edit' button highlighted with a red box. Other options for this item include 'Edit settings', 'Move right', 'source', 'Hide', 'Duplicate', 'Assign roles', and 'Delete'. Below this block are sections for '4 May - 10 May', '11 May - 17 May', and '18 May - 24 May'. To the right, there are modules for 'SEARCH FORUMS', 'LATEST NEWS' (which is empty), 'UPCOMING EVENTS' (which also is empty), and 'RECENT' (which is also empty). The top navigation bar shows the URL as http://localhost/course/view.php?id=2¬ifyeditingon=1, and the status bar at the bottom indicates Internet | Protected Mode: On 100%.

The screenshot shows the Moodle course administration interface for the 'Introduction to Java' course. The left sidebar includes navigation links for Home, Current course (with sub-links for Participants, Badges, General, and various dates), and Administration. The main content area displays a calendar view from April to June. In the '4 May - 10 May' block, there is an 'eLesson' activity titled 'New eLesson'. A context menu is open over this activity, with the 'Delete' option highlighted by a red box. Other options in the menu include Edit, Edit settings, Move right, source, Hide, Duplicate, and Assign roles.

Add Power Point page in eLesson

1. In eLesson page, click 'Add a PowerPoint'.
2. upload the powerpoint file, and fills up others data, then click 'Save page'.
3. If the upload process is success, you should be able to see successful message display on the web page.

View the PowerPoint page

Click 'Preview' on the tab.

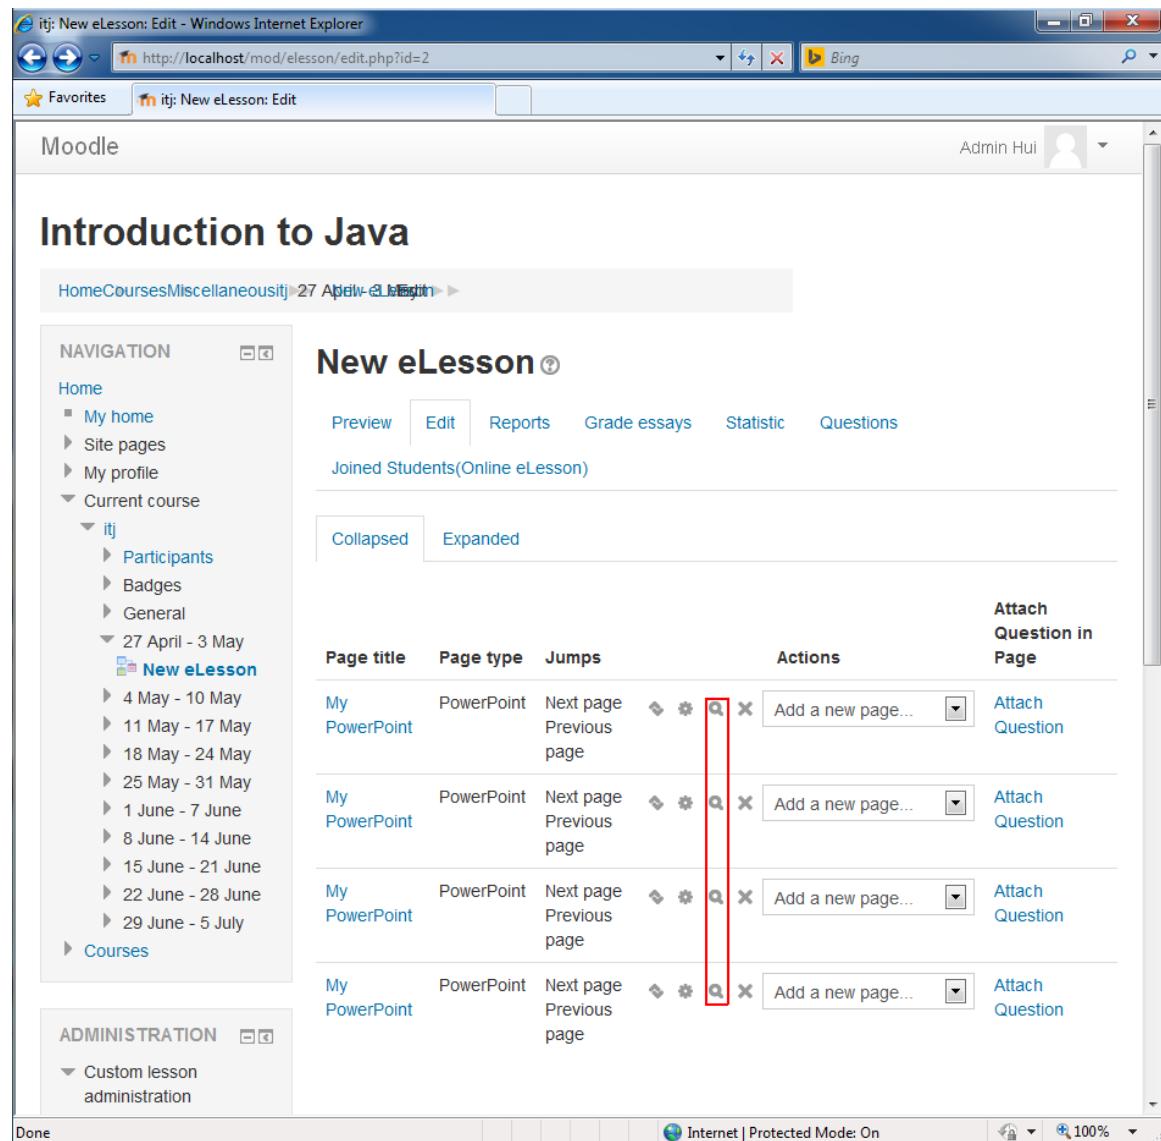

The screenshot shows a Moodle-based eLesson editing interface in Internet Explorer. The title bar reads "itj: New eLesson: Edit - Windows Internet Explorer" and the address bar shows "http://localhost/mod/elesson/edit.php?id=2". The page title is "New eLesson". The navigation menu on the left includes "Home", "Current course" (expanded to show "itj", "Participants", "Badges", "General", and several date ranges), and "Courses". The administration menu on the left includes "Custom lesson administration". The main content area displays a table of four rows, each representing a PowerPoint page titled "My PowerPoint". The columns are "Page title", "Page type", "Jumps", "Actions", and "Attach Question in Page". The "Actions" column contains icons for preview, edit, delete, and add a new page, along with a dropdown menu. The "Attach Question in Page" column has a link "Attach Question". The status bar at the bottom indicates "Internet | Protected Mode: On" and "100%".

Page title	Page type	Jumps	Actions	Attach Question in Page
My PowerPoint	PowerPoint	Next page Previous page		Attach Question
My PowerPoint	PowerPoint	Next page Previous page		Attach Question
My PowerPoint	PowerPoint	Next page Previous page		Attach Question
My PowerPoint	PowerPoint	Next page Previous page		Attach Question

View certain page number

1. Locate the row that contains the PowerPoint page you want to view.

2. Click  on that row.

The screenshot shows the Moodle 'New eLesson' edit page. The left sidebar has 'NAVIGATION' and 'ADMINISTRATION' sections. The main area shows a table of pages:

Page title	Page type	Jumps	Actions	Attach Question in Page
My PowerPoint	PowerPoint	Next page Previous page		Add a new page... <input type="button"/>
My PowerPoint	PowerPoint	Next page Previous page		Add a new page... <input type="button"/>
My PowerPoint	PowerPoint	Next page Previous page		Add a new page... <input type="button"/>
My PowerPoint	PowerPoint	Next page Previous page		Add a new page... <input type="button"/>

Delete certain PowerPoint page

1. Locate the row that contains the PowerPoint page you want to delete.

2. Click  on that row.

3. Confirm the deletion.

The screenshot shows a Moodle-based eLesson interface. The main content area displays a confirmation dialog box with the heading 'Deleting page: My PowerPoint'. Below the heading is the text 'Confirm deletion of this page'. At the bottom of the dialog are two buttons: 'Continue' (which is highlighted with a red border) and 'Cancel'. To the left of the dialog is a navigation sidebar under the heading 'NAVIGATION'. This sidebar includes links for 'My home', 'Site pages', 'My profile', and 'Current course'. The 'Current course' section is expanded, showing a list of weeks from '27 April - 3 May' to '29 June - 5 July'. Within this list, 'New eLesson' is also expanded, showing specific dates for each week. At the bottom of the sidebar is a link for 'Courses'. Below the navigation sidebar is another sidebar under the heading 'ADMINISTRATION', which contains a single link for 'Custom lesson administration'. The top of the page features a standard browser header with the title 'itj: New eLesson: Deleting page: My PowerPoint - Windows Internet Explorer', the URL 'http://localhost/mod/elesson/lesson.php?id=2&action=confirmdelete&pageid=3&ses: 27 April - 3 May', and a user profile for 'Admin Hui'. The bottom of the page includes standard browser controls for zoom and orientation.

Rearrange page order

1. Locate the row that contains the PowerPoint page you want to move.

2. Click  on that row.

3. Choose the right position the page should be moved by clicking 'Move page to here'.

The screenshot shows a Windows Internet Explorer window displaying the Moodle 'New eLesson' edit interface. The URL is <http://localhost/mod/elesson/edit.php?id=2>. The title of the page is 'Introduction to Java'. The navigation bar includes 'Home', 'Courses', 'Miscellaneous', 'itj: New eLesson', '27 April - 3 May', and 'Edit'. The main content area is titled 'New eLesson' with tabs for 'Preview', 'Edit' (selected), 'Reports', 'Grade essays', 'Statistic', and 'Questions'. Below this is a section for 'Joined Students(Online eLesson)'. A 'Collapsed' button is visible. The main table lists four pages under 'Current course': 'My PowerPoint' (PowerPoint type). The 'Actions' column for each row contains icons for 'Move page to here' (indicated by a red box), 'Edit', 'Search', and 'Delete'. The 'Actions' column also includes a dropdown menu 'Add a new page...' and a 'Attach Question' link. The table has columns for 'Page title', 'Page type', 'Jumps', 'Actions', and 'Page' (labeled 'Attach Question in Page'). The bottom left sidebar shows 'ADMINISTRATION' with 'Custom lesson administration' selected. The bottom status bar shows 'Internet | Protected Mode: On' and a zoom level of '100%'. The top right corner shows 'Admin Hui' with a user icon.

Moving page: My PowerPoint

Move page to here

Done Internet | Protected Mode: On 100%

The screenshot shows a Moodle-based application window titled "itj: New eLesson: Moving page: My PowerPoint". The URL in the address bar is "http://localhost/mod/elesson/lesson.php?id=2&action=move&pageid=3&sesskey=Gf5". The top navigation bar includes "Moodle" and "Admin Hui". The main content area has a title "Introduction to Java" and a breadcrumb trail "Home Courses Miscellaneous 27 April 2011 Move page". A "NAVIGATION" sidebar on the left lists "Home", "Current course" (with "itj" expanded), and "Courses". An "ADMINISTRATION" sidebar lists "Custom lesson administration". The main content area displays "New eLesson" and "Moving page: My PowerPoint". A list of "My PowerPoint" pages is shown with "Move page to here" buttons next to each, all of which are highlighted with a red border. The bottom status bar shows "Done", "Internet | Protected Mode: On", and "100%".

Launch OnlineeLesson

Click 'Start Online Lesson'.

The screenshot shows a Moodle-based eLesson interface in a Windows Internet Explorer browser window. The title bar reads "itj: New eLesson: My PowerPoint - Windows Internet Explorer" and the address bar shows "http://localhost/mod/elesson/view.php?id=2". The page header includes "Moodle" and "Admin Hui". The main content area displays the title "Introduction to Java" and a navigation menu. The navigation menu includes sections for "Home", "Current course" (with "itj" selected), and "Courses". Under "Current course", there is a list of dates from "27 April - 3 May" to "29 June - 5 July", with "New eLesson" highlighted. The main content area features a large yellow background with the text "Center Title" and "Subtitle". The top right of the content area has a "Edit page contents" button. The bottom right of the browser window shows "Internet | Protected Mode: On" and "100%".

Stop Launching Online eLesson

Click 'Stop Online Lesson'.

The screenshot shows a Moodle-based online lesson page titled "New eLesson" in a Windows Internet Explorer browser window. The URL in the address bar is <http://localhost/mod/lesson/view.php?id=2>. The page header includes the Moodle logo, the title "Moodle", and a user profile for "Admin Hui". The main content area displays the title "Introduction to Java" and a navigation menu with links like "Start Online Lesson" and "Stop Online Lesson" (which is highlighted with a red box). Below the menu are tabs for "Preview", "Edit", "Reports", "Grade essays", "Statistic", and "Questions". A sidebar on the left shows a navigation tree with categories like "Home", "Current course", and "Courses". The main content area features a large yellow background with the text "Center Title" and "Subtitle". The bottom status bar of the browser indicates "Internet | Protected Mode: On" and "100%".

Watch report in eLesson

Click 'Reports' in the administrative tab.

The screenshot shows a Moodle interface for an 'eLesson'. The title bar reads 'itj: New eLesson: Students List - Windows Internet Explorer' and the URL is 'http://localhost/mod/elesson/studentslist.php?id=2'. The top navigation bar includes 'Moodle', 'Admin Hui', and a user icon. The main content area is titled 'Introduction to Java' and shows a breadcrumb trail: 'Home > Courses > Miscellaneous > 27 April - 3 May > Students List'. A 'NAVIGATION' sidebar on the left lists 'Home', 'Current course' (with 'itj' selected), and 'Courses'. Under 'itj', there are links for 'Participants', 'Badges', 'General', and several date ranges from '4 May - 10 May' to '29 June - 5 July'. An 'ADMINISTRATION' sidebar on the left lists 'Custom lesson administration'. The main content area has tabs for 'Preview', 'Edit', 'Reports' (which is highlighted with a red border), 'Grade essays', 'Statistic', and 'Questions'. A box labeled 'Joined Students(Online eLesson)' is present. The bottom status bar shows 'Internet | Protected Mode: On' and a zoom level of '100%'. The browser window has standard Internet Explorer controls at the top.

Add question to eLesson question bank

1. Click 'Question' on the tab.
2. Click 'Add Questions'.
3. Choose the question type and click 'Add a question page'.
4. Fills up the data (* is mandatory) and click 'Save page'.

Attach question into PowerPoint page

1. (If you haven't created question yet, go to **Add question to eLesson question bank**)

Click 'Attach Question'.

2. Choose the suitable question and click 'Continue'.

The screenshot shows a Moodle interface for editing an eLesson. The left sidebar includes navigation for Home, Current course (with sub-items like Participants, Badges, General, and specific dates from April to July), and Administration (with Custom lesson administration). The main area displays a table of pages under 'New eLesson'. The table has columns for Page title, Page type, Jumps, Actions, and a header for 'Attach Question in Page'. The 'Actions' column contains icons for edit, delete, search, and add a new page. The 'Attach Question in Page' column contains four blue hyperlinks labeled 'Attach Question', which are all enclosed in a red rectangular box. The browser status bar at the bottom indicates 'Internet | Protected Mode: On' and '100%'. The URL in the address bar is 'http://localhost/mod/elesson/edit.php?id=2'.

Question Title: Question 1

Internet | Protected Mode: On 100%

The screenshot shows a Moodle-based application window. The title bar includes 'Favorites', 'itj: New eLesson: Question', and the Moodle logo. The top right corner shows 'Admin Hui' with a user icon. The main header 'Introduction to Java' is followed by a breadcrumb trail: 'Home > Courses > Miscellaneous > 27 April - 3 May > New eLesson'. A left sidebar titled 'NAVIGATION' contains links for Home (My home, Site pages, My profile), Current course (itj: Participants, Badges, General, dates from 27 April to 5 July), and Courses. Another sidebar titled 'ADMINISTRATION' contains a link for Custom lesson administration. The central content area is titled 'New eLesson' and 'Attach questions from Question Banks'. It features a search bar for 'Question Title' with 'Question 1' selected, and two buttons at the bottom: 'Continue' (highlighted with a red box) and 'Cancel'. The bottom of the screen shows standard browser controls and status information like 'Protected Mode: On' and '100% zoom'.

Answer question (self-study mode)

1. (If you haven't created question in question bank, go to **Add question to eLesson question bank**, if you haven't attach question in PowerPoint page, go to **Attach question into PowerPoint page**).

Go to the PowerPoint page that question is attached.

2. Choose an answer for the question, and click 'Check Answer'.
